

Product Features

- configuration:
 - frost-proof outdoor valve
 - socket 230 V
- wetted metal parts made of dezincification-free and corrosion-resistant gunmetal (in closed position), resistant against aggressive water
- lockable, stainless steel, polished surface
- as supply unit to the central power and water supply
- with SCHUKO surface-mounted socket
- frame with door with profile cylinder lock as a key lock including bit keys
- retrofittable and interchangeable on an existing locking system
- can be converted on site to CH-KABA lock design
- door with integrated flap version for hose or cable connection for security even during operation
- maintenance-free EPDM spindle seal
- cone with internal CV spring
- can be extended to any length at construction site
- integrated CV and tube aerator as a security combination HD
- male pipe thread
- actuating grip with blue identification plate
- free from dead spots
- incl. hose coupling for common connection systems
- lock with uniform key number on request, other configurations on request

Standards and Approvals

- valve with DVGW approval
- Valve with ÖVGW approval
- valve with SVGW approval
- Valve with KIWA approval
- Valve with BELGAQUA approval
- plastic parts with KTW and W 270 approval
- according to accepted materials list from German environmental agency
- soundproofing certification according to DIN EN ISO 3822 Class 1
- DIN EN 15096 family H, type B / EN 1717 / DIN EN 13959

Technical data

- pressure rating PN 16
- protection class IP44
